California Third-Party Marketing Notice

As provided by California civil code section 1798.83, a California resident who has provided personal data to a business with whom he/she has established a business relationship for personal, family, or household purposes (a “California customer”) may request information about whether the business has disclosed personal data to any third parties for the third parties’ direct marketing purposes. If the business has made such a disclosure of personal data, upon receipt of a request by a California customer, the business is required to provide free of charge a list of all third parties (if any) to whom personal data was disclosed in the preceding calendar year, as well as a list of the categories of personal data that were disclosed.

California residents should visit our website for further information on how to submit a request or, if applicable, opt out of our sharing of the customers’ personal data with third parties for those parties’ direct marketing purposes.
